

SageOpenAccess

Independence With Impact

A refreshed look with a new slogan to match our spirit

SageOpenAccess

Independence with impact

By: Shirley Yap

Regional Manager, Field Library Sales – SEA

Independence means we're...

Free to
do more

championing and
publishing new ideas that
advance disciplines and
drive social change

Free to
work together

creating lasting
relationships with
librarians and faculty to
transform teaching and
advance knowledge

Free to
think long term

experimenting and risk-
taking as we create
resources that anticipate
future higher ed needs

SageOpenAccess

Sage Open Access Publishing

Benefit, Resource and Service

Independence with impact

Agenda

A long-term advocate of sustainable open research, we provide easy and innovative publishing routes for authors seeking to build momentum and increase their reach.

- Open Access Agreement
- Sage Open Access Publishing Options
- Smooth Author's Publishing Journey

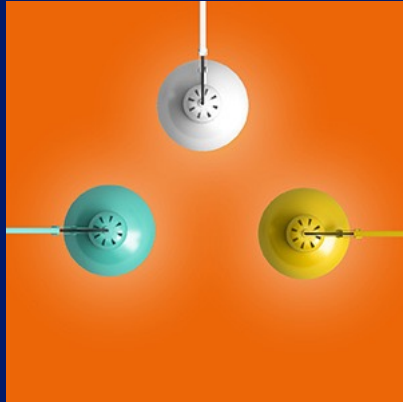

Sage Open Access

Our Mission

”

For over a decade we have played an active role in Open Access, seeking to build bridges to knowledge in the research community. From our extensive author service to our flexible OA publishing routes, Sage is here to empower you as researchers, librarians and readers.

FAQ

Open Access Agreement

How Sage Support OA Publishing

- We actively work with national consortia to develop national-level sales deals to help institutions embrace open access publishing.

[Sage Open Access Portal](#)

An integrated online platform that provides a single portal for authors, consortia, libraries and funders to manage open access publishing.

It now supports both Sage Choice, our hybrid OA publishing option for 900+ journals, as well as Sage's 200+ pure Gold Open Access journals.

[Open Access Agreements](#)

Institution enables to help author to cover the open access article processing charge (APC) through an Open Access agreement they have with Sage.

Open Access Publishing Options

How Sage Support OA Publishing

- The Gold Route

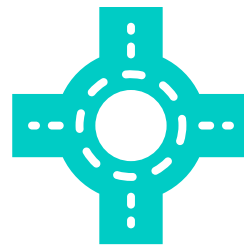

Provide worldwide, barrier-free access to the full-text of articles online, immediately on publication under a creative commons license.

[Pure Gold Open Access Journals | Sage Publications Australia](#)

- Sage Choice Hybrid Open Access

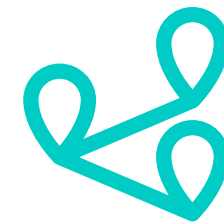

Offer the option to make their articles freely available upon publication in most subscription-based Sage Journals.

[Sage Choice | Sage Publications Australia](#)

- The Green Route

Share the Original Submission or Accepted Manuscript at any time after your paper is accepted and in any format.

How does the Sage Research Methods product help with Open Access?

We're free to work together

Guide searcher through research project.

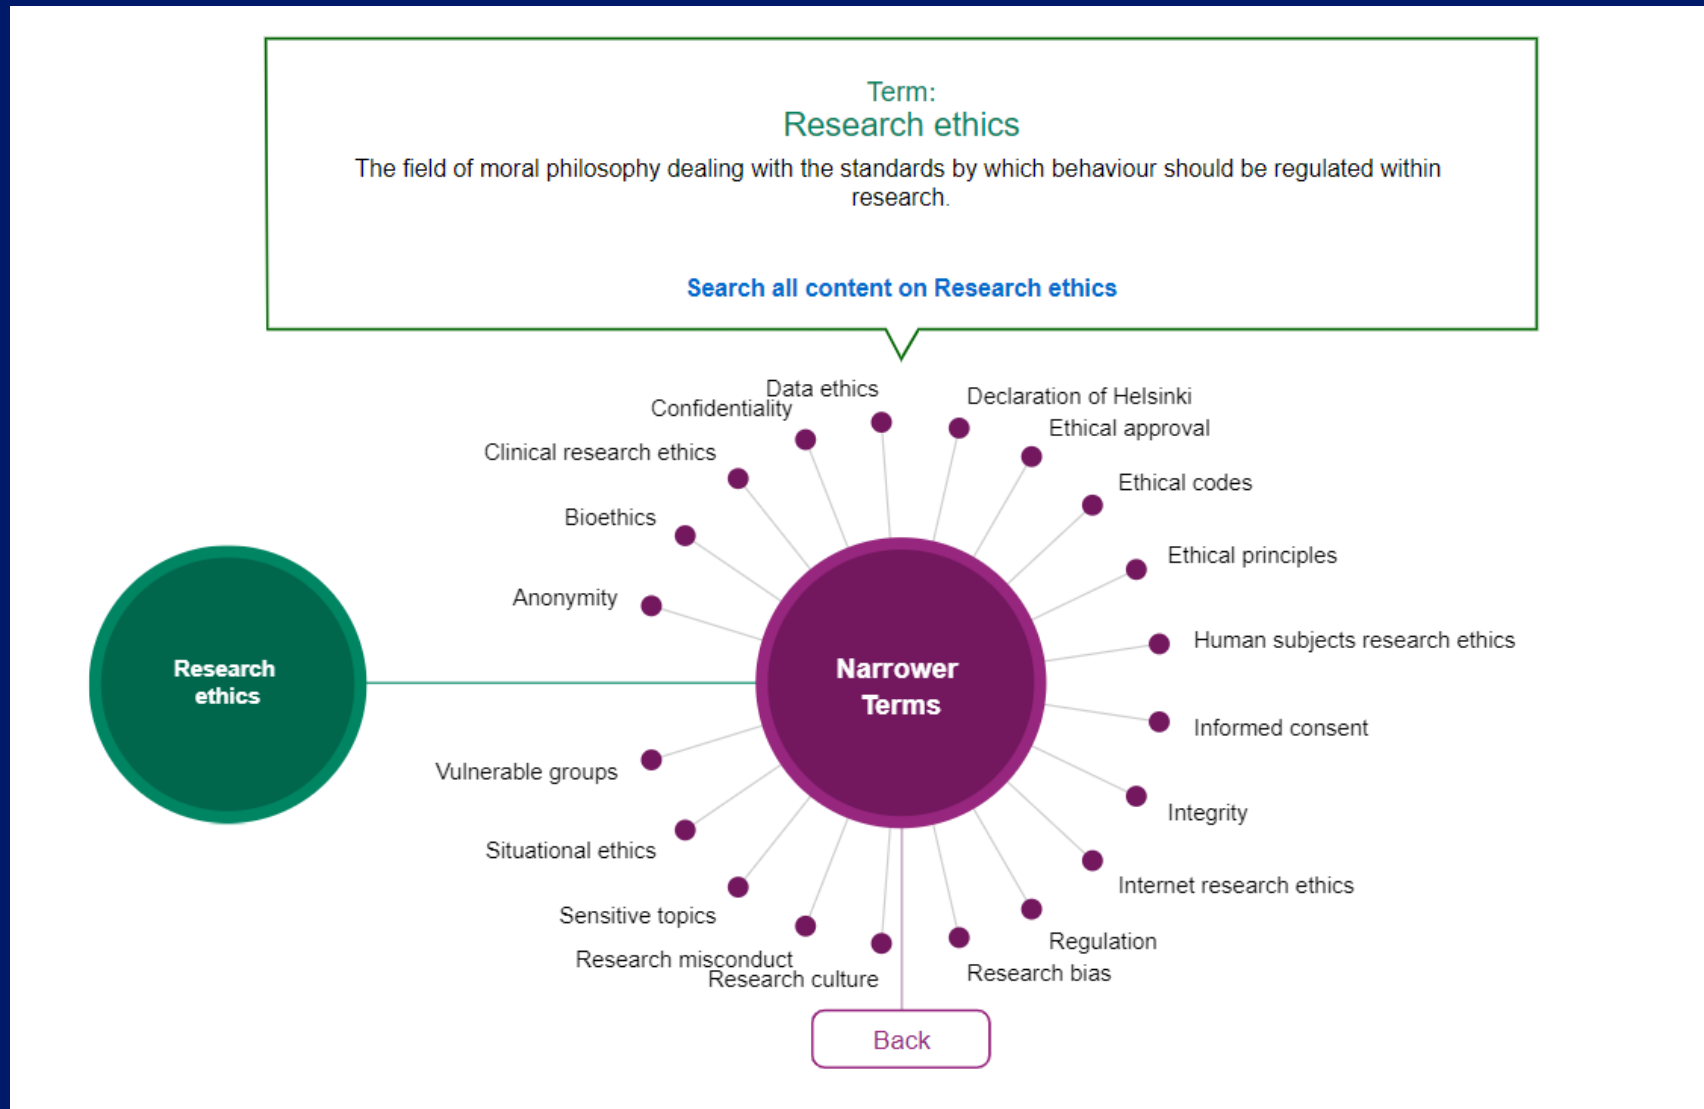

Part 1: Project Planner

The screenshot shows the 'Project Planner' interface. On the left is a vertical navigation menu with stages: Overview (selected), Philosophy of Research, Defining a Topic, Reviewing the Literature, Developing a Researchable Question, Research Design, Planning and Practicalities, Research Ethics, Data Collection, Data Analysis and Interpretation, Writing Up, and Dissemination. The main content area is titled 'Overview' and contains a paragraph: 'This tool is designed to guide you through your research project. First, think about what stage you're at in your research. If you've already gotten started, click on the stage below that best describes where you are. If you're just starting out, it might be helpful to read more about why we do research before getting started.' Below this text is a blue button labeled 'NEXT: PHILOSOPHY OF RESEARCH' with a right-pointing arrow.

The screenshot shows the 'Research Ethics' page. On the left is a vertical navigation menu with stages: Overview, Philosophy of Research, Defining a Topic, Reviewing the Literature, Developing a Researchable Question, Research Design, Planning and Practicalities, Research Ethics (selected), Data Collection, Data Analysis and Interpretation, Writing Up, and Dissemination. The main content area is titled 'Research Ethics' and has a green header bar with the word 'Introduction'. Below the header, it shows 'Publication year: 2017' and a DOI link. There are social sharing icons (Add to list, Get link, Cite, Share, Embed, Download PDF) and a 'Show All' link. The main text area is titled 'Introduction' and contains a paragraph: 'This stage will:'. Below this is a list of bullet points: 'Help you decide whether your research is ethical', 'Explain key ethical concepts, such as informed consent and anonymity', and 'Explain the process for gaining ethical approval to conduct your research'. There is also a paragraph of text: 'For the social science researcher, issues of ethics and safety are of great importance, and should remain in the front of your mind when planning and carrying out research. We must take regard for the safety and well-being of the people we work with, just as we expect other people (and the institutions we work for) to take care of us.' Below this is a paragraph: 'This part of the tool will help you think about what it means to research ethically and safely and will lead you to additional resources to find out more.' At the bottom, there is a list of dropdown menus: 'How Do I Know My Research Is Ethical?', 'What Do I Need to Know About Potential Harm and Informed Consent?', 'Why Is Confidentiality an Important Aspect of Research?', 'Do My Research Subjects Need to Be Aware of My Role as Researcher?', 'How Can I Gain Ethical Approval for My Research?', 'What Is a Risk Assessment?', 'How Can I Ensure I Will Be Safe When Carrying Out My Research?', 'What Do I Need to Know About Informed Consent and Confidentiality?', 'What Is Researcher Bias?', and 'Checklist: Ethical Data Collection From Human Participants'.
