

iGroup (Asia Pacific) **Company Profile**

Established since 1983

iGroup
Where Information Meets Innovation

About Our Company

Established over 40 years ago, iGroup serves to provide information products, library technologies, and educational resources.

Our Vision

To become the leading provider of information and solutions for the Education and Research Community.

Our Mission

To be Asia-Pacific's leading provider of information and technological products and services for the research and education sectors.

To provide new learning and knowledge solutions for professionals, to develop and acquire the skills needed for the 21st century.

The iGroup (Asia Pacific) Limited is honored to be named as a Caring Company by the Hong Kong Council of Social Service. Nominated by Caritas – Catholic Diocese of Hong Kong, the iGroup has been bestowed this award because of its continuous support and commitment to the young and the elderly through Caring for the Community, Caring for Employees, and Caring for the Environment.

iGroup Core Value

Company Overview

The iGroup aims to be a one-stop station for information products and library technologies. Our ability to provide a full spectrum of related products and services with localized support from each of our regional offices, establishes us as the key information industry partner in the Asia-Pacific region.

iGroup (Asia Pacific) Limited

is a Hong Kong registered multinational organization.

Offices

Offices spanning over 20 countries in the Asia-Pacific region.

Employees

Total workforce of over 1,500 within Asia-Pacific region.

Our History

Since the late 1990s, the iGroup companies have initiated and successfully implemented many pioneering consortia throughout the region.

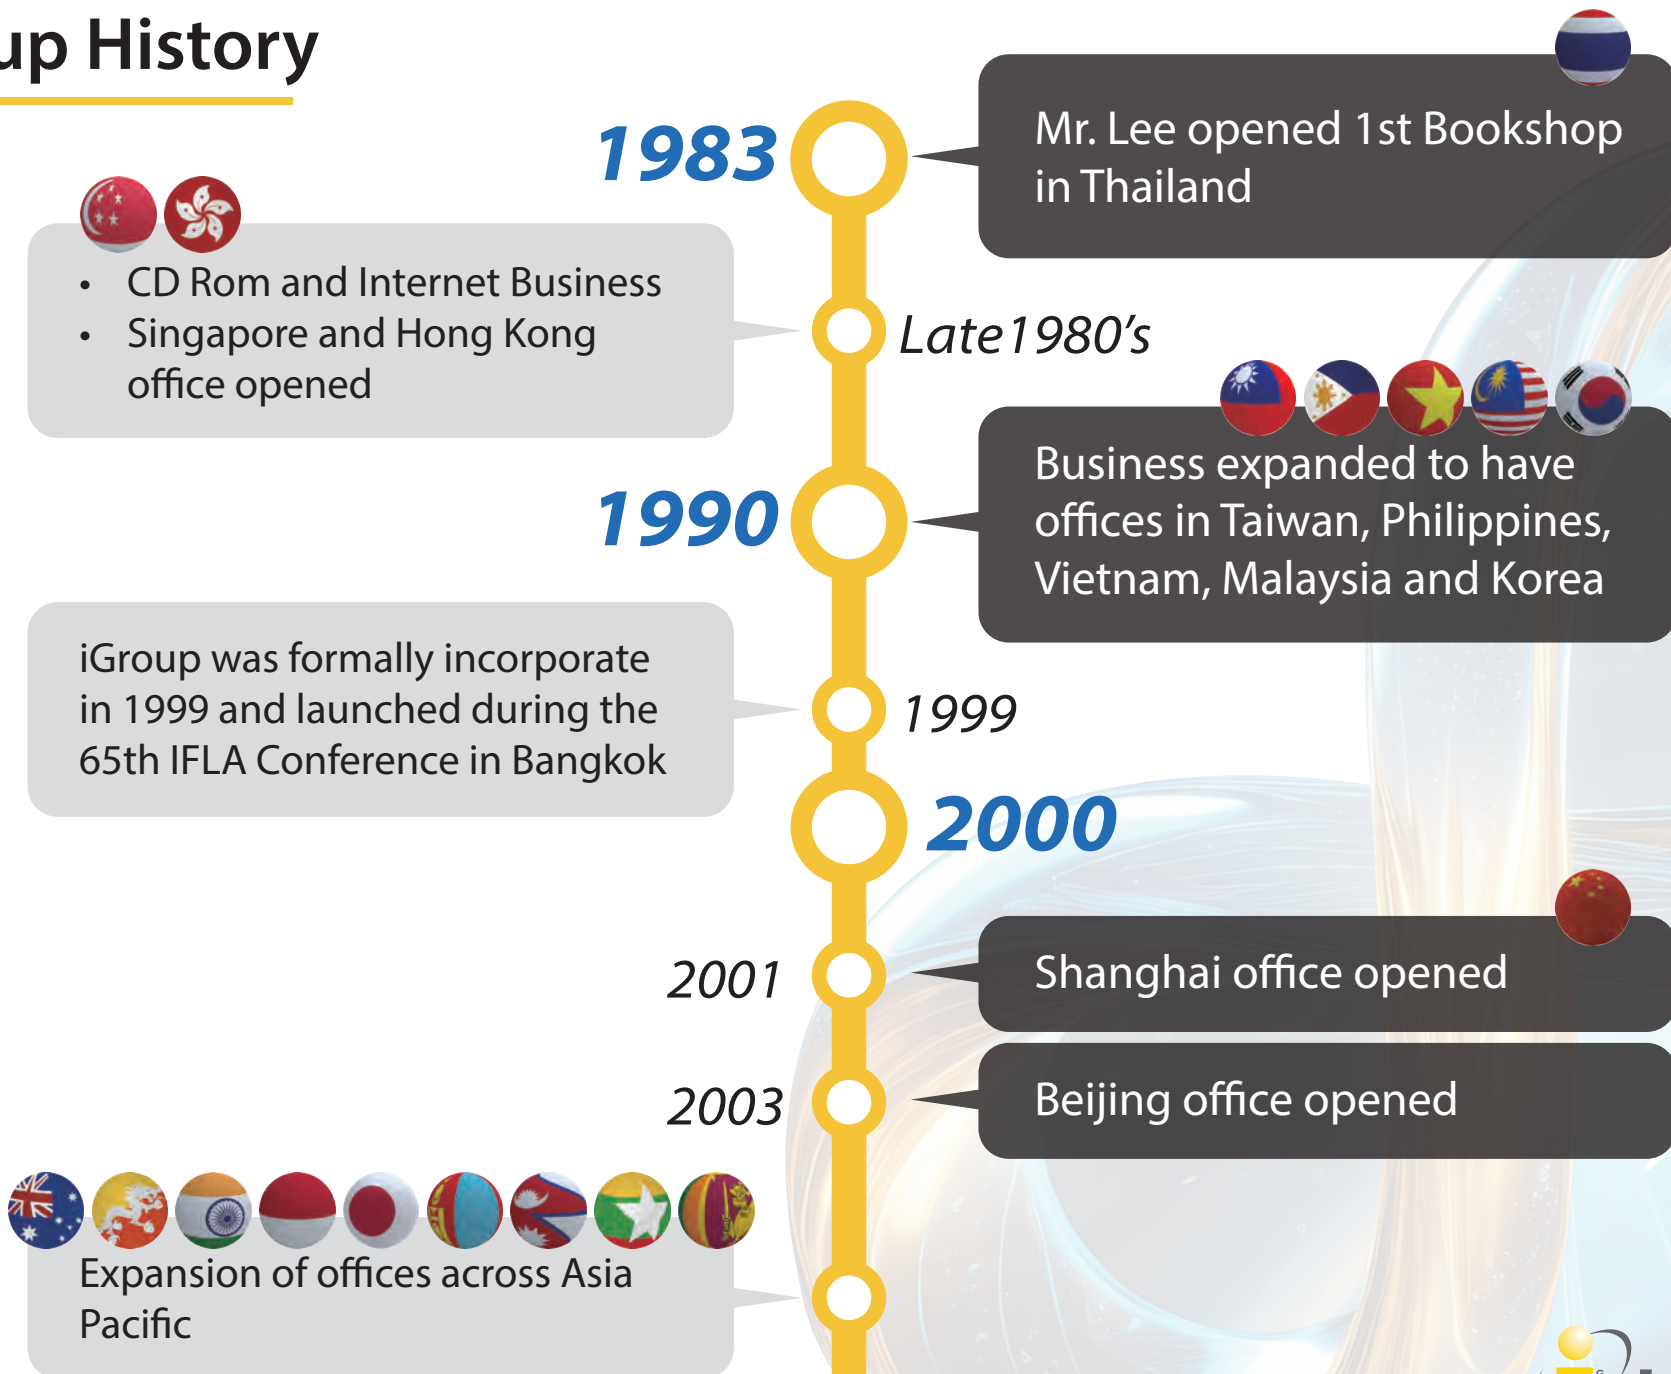

Milestones

These successes are largely due to our close working relationship and credibility with both information providers and customers. We have set up consortia in China, South Korea, Thailand, Taiwan, Hong Kong, India, Malaysia and Australia.

Access

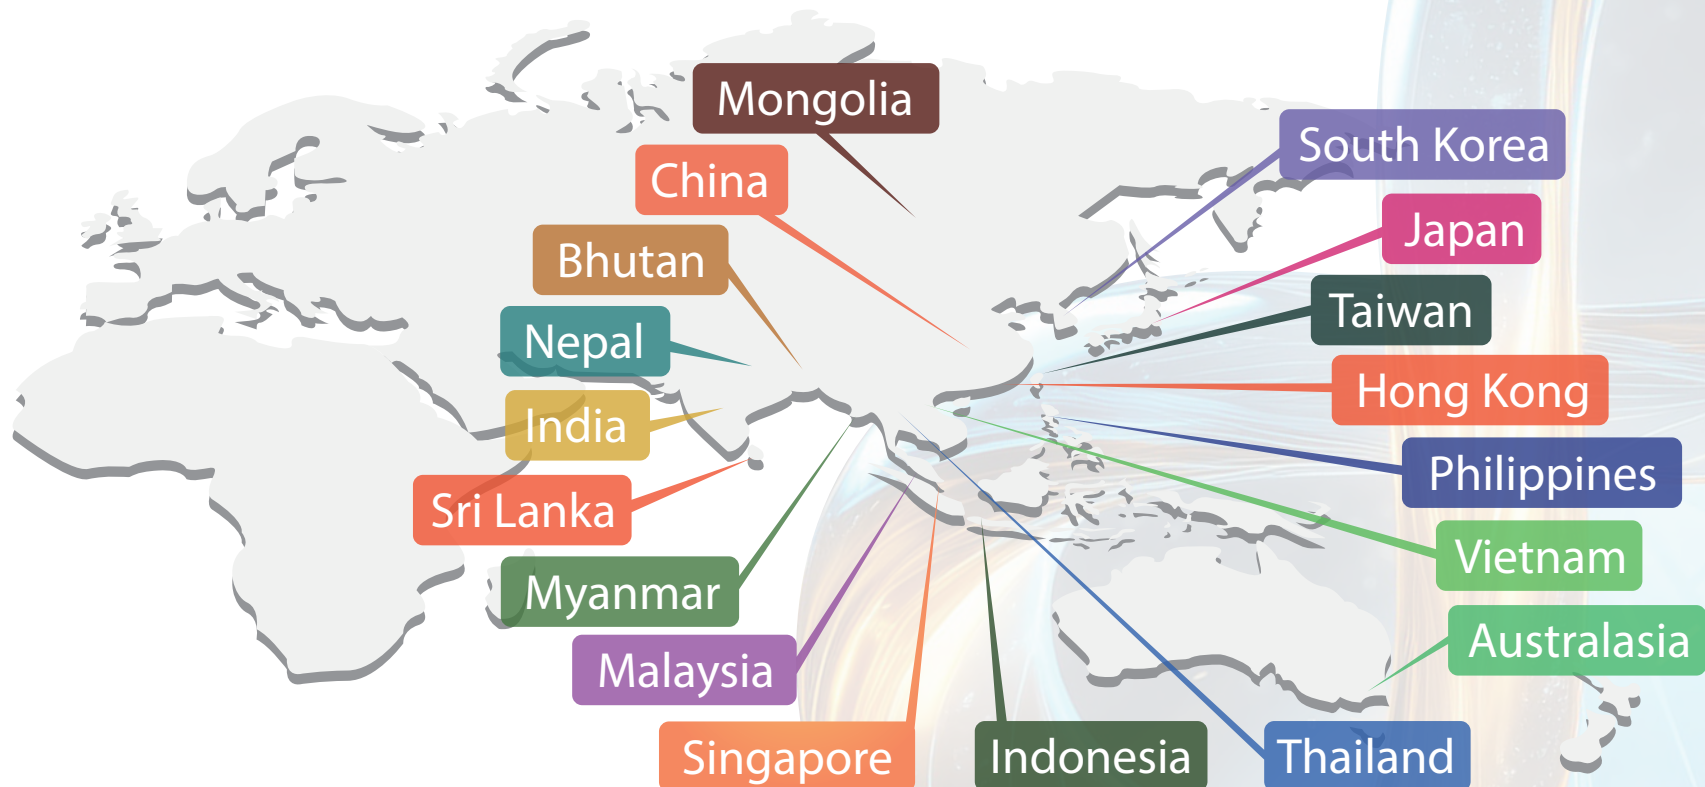

Library Learning Space is an iGroup (Asia Pacific) website: Asia's Newspaper on Electronic Information Products & Services, which no longer has a print edition.

iGroup History

iGroup Territories

The iGroup (Asia Pacific) Limited is a Hong Kong-registered multinational organization with offices spanning over 20 countries in the Asia Pacific region with a total workforce of over 1,500.

Products & Services

K-12

Addressing the growing needs of the K-12 market in innovative and effective digital education solutions in the area of S.T.E.E.M.S. (Science, Technology, Engineering, English Languages, Mathematics and Social Studies).

Consultancy

We improve visibility of research publications by converting them into easy-to-understand format and share them via social media, increasing the potential for citation.

Research Tools

Our range of tools is designed to empower researchers, academics, and professionals across various disciplines to explore, analyse, and innovate. From robust databases to cutting-edge analysis software, we aim to equip you with the resources necessary to explore, discover, and innovate.

Academic Contents

We work with prestigious academic publishers around the world to deliver high-quality content online to support teaching and research across APAC region.

Publishing Platforms

iGroup's publishing technology has enabled over 80 established publishers to offer quality ebooks and enhanced user experience to customers around the world.

Technology & Productivity Tools

We provide various technology solutions from bibliographic management, literature discovery, and image checking to support productive research and innovative learning.

Academic Contents

The building blocks for all research and development

Building your library's eResources can be a tremendous task, especially when students' and faculty's information requirements continue to expand at the same rate as digital communications. This is where iGroup can help you with all of your information needs, whether it's research articles on a certain topic or discipline, eBooks to complement curricula, or tools that improve research productivity.

Our collaboration with publishers is established on a country-by-country basis.

Please contact your local iGroup office for information on the publishers we represent.

Publishing Platforms

Distribution and reprint of books from well known publishers for the academic and corporate market

Business Expert Press is dedicated to developing collections of complementary titles within specific business disciplines and across topics of interest. Each collection is led by a collection editor or professor who actively charts the strategic direction of the collection and seeks out new topics.

BEP eBooks is focusing on translating real-life business experiences and business knowledge. It is a concise, easy-to-read book for advanced business students.

IG Publishing is a leading aggregator of ebooks for academic, government, corporate, and public libraries around the world. We work with leading publishers and societies to host their high-quality content on our platform. The content is carefully curated and then distributed to customers via our state-of-the-art platform, which is securely managed and provides advanced analytics features. Customers have come to appreciate IG Publishing as a reliable partner for their e-resource needs. Beyond ebooks, since 2020, IG Publishing has started to distribute journals, standards, and databases.

In Asia, iGroup Press (Bangkok) publishes travel and cultural guides, cookery books and phrasebooks, reprints in English of scientific, technical, and medical/nursing textbooks, and translations into Chinese and Thai of selected scientific titles.

Technology & Productivity Tools

Improve research efficiency with cutting-edge productivity tools

Binumi is a unique video platform that empowers individuals and businesses of any size to take control of their communication by providing the tools to unlock, create and share compelling stories that can build opportunity and growth for their business.

Education solution (software, curriculum, and training) that integrates technology curriculum including coding into all subjects, standards, and databases.

Learn Social platform integrates everyday communication tools and peer review into your English courses. Whenever students have to complete a speaking or writing exercise, they first submit their work to their Study Group for review.

Morressier

Morressier's tools help you handle the entire workflow, from managing abstracts to presenting content on-site. Maximize the efficiency and impact of every step, from publishing a call for abstracts to sharing the posters and presentations from your conference and monitoring their impact.

RemoteXs has an ability to provide secured access to scattered eResources of the institution, bringing them under one umbrella, along with subscribed eJournals, eBooks and all other eContent, that too anytime... from anywhere.

MyLOFT®

MyLOFT is your personal library, where you include the contents you need and categorize them the way you like! A single app that allows you to access, organize, share, and read offline all of your e-contents, anytime, anywhere.

iGroup

Research Tools

Empowering Academic and Professional Research: Explore Our Cutting-Edge Research Tools

CiteReady is an online authoring tool that streamlines professional writing process and research workflow. It provides an integrated platform from data collecting, citation management, idea sharing, peer collaboration, manuscript formatting, to originality checking for paper publishing. CiteReady is the cradle nursing your ideas into reality enhancing your authoring and research productivity.

Efforts to promote honesty and transparency in research have been increasing the need for effective systems to identify plagiarized text and images in scientific papers. And while there are many text-checking solutions in the market, until now, the main method for identifying problematic images was manual, visual inspection. Finding reused and manipulated images not only requires a considerable level of expertise, but is a laborious and time-consuming task which requires handling a large number of images. ImaChek is a solution for automatic detection and analysis of images in scientific papers.

Consultancy

We Share Your Discovery!

In the space of scholarly communication, research outreach is an emerging trend. ies Research helps researchers to improve their research visibility, which potentially leads to higher citations.

In addition, we provide the latest skill sets and world-class technologies to resolve individual and organizational challenges in preparation for the future. All services from ies Research include: research outreach programmes, workshops, analytics, and technologies.

Research outreach program through iestory

We design visuals and/or animations to supplement your research findings and maximize the understanding of the discoveries. Using social media as our primary platform, we share your story globally to improve research visibility and increase scholarly engagement. We leverage the digital data generated to optimize our dissemination strategy by observing indicators such as numbers of views and full-text downloads.

K-12

Building Forefront Educators and 21st Century Learners

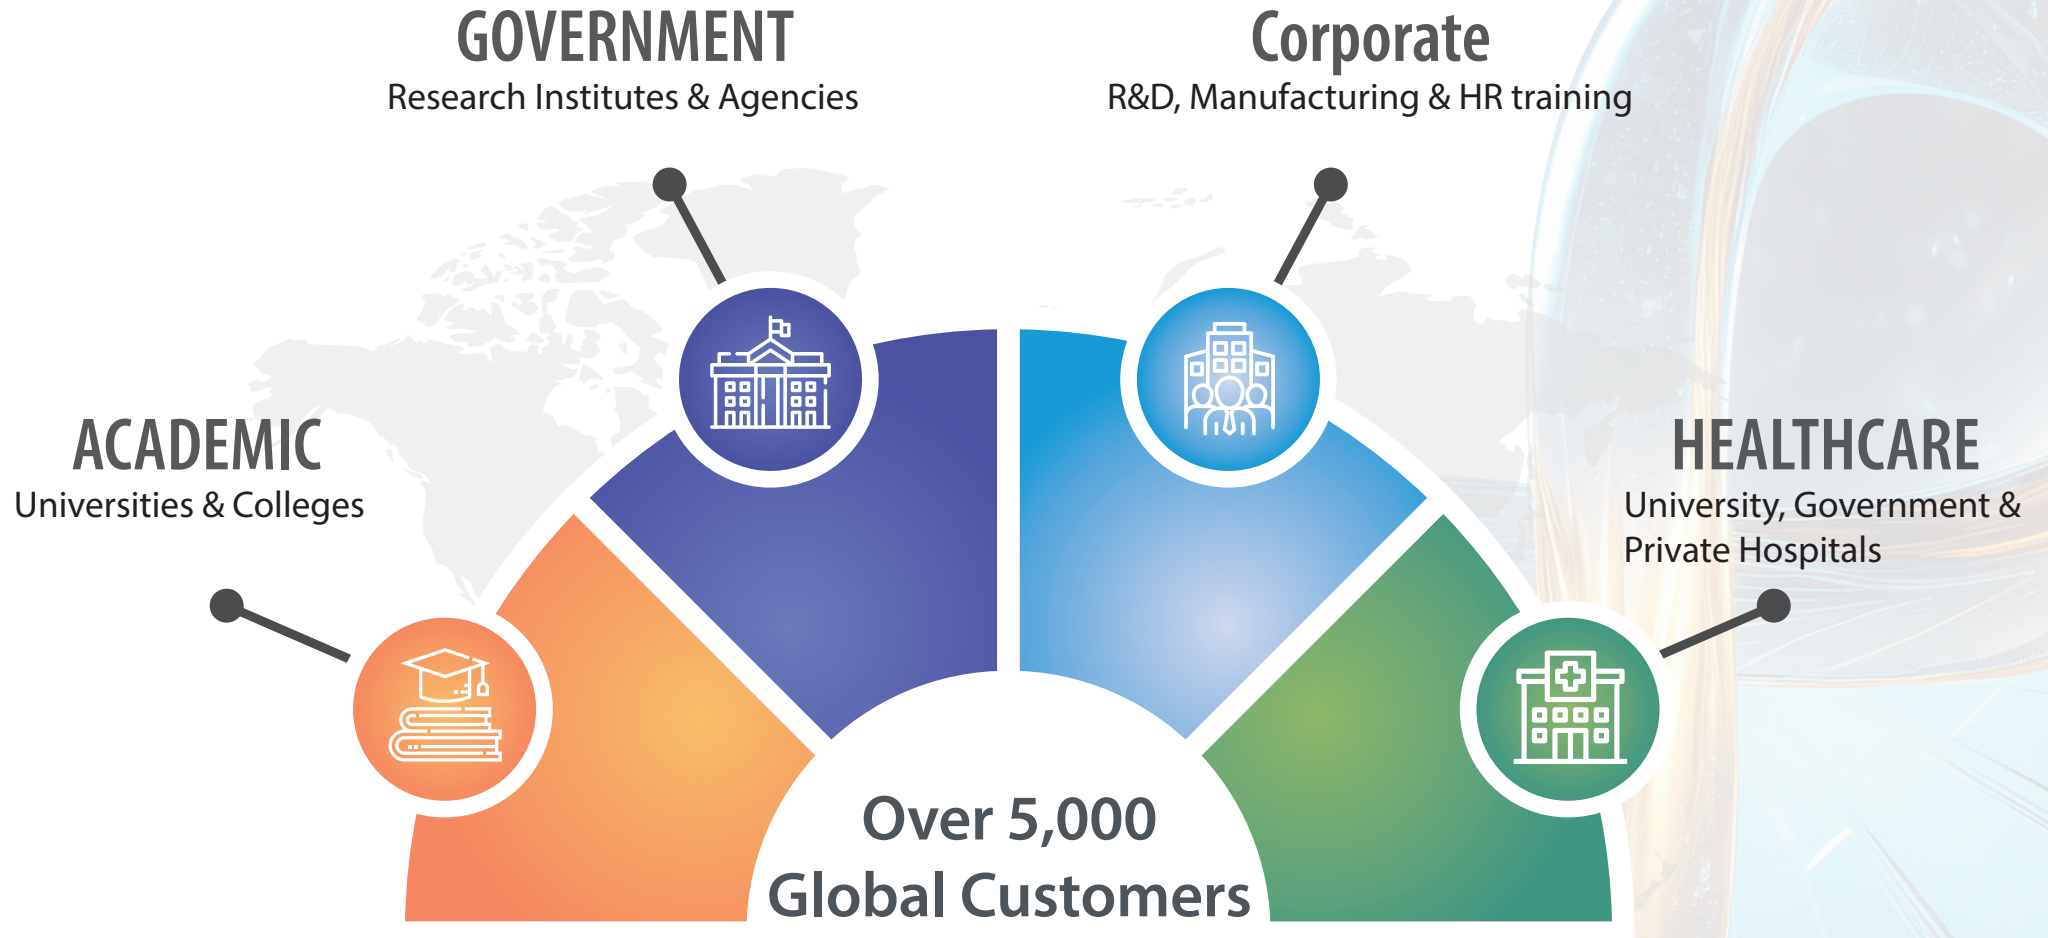

MangoSTEEMS, a leading education service provider, is committed to equipping every child with the knowledge and skills required to succeed and excel in the rapidly evolving landscape of the 21st century and beyond.

With a strong focus on innovative, research-based educational solutions, MangoSTEEMS aims to revolutionize the K-12 market by integrating cutting-edge technology and pedagogical practices to deliver exceptional learning experiences.
